Wazuh SIEM Personal Custom Rule List by Nir Roitman - https://www.linkedin.com/in/nir-roitman/

Last Update – 02.FEB.2026 V1

Description	Level	ID	File
Windows Autoruns - VirusTotal Hit Above 10 Matches	16	100052	Autoruns_virustotal.xml
The event logging service has shut down	16	112102	windows-custom.xml
User - $(win.eventdata.targetUserName) - enabled or created by $(win.eventdata.subjectUserName)	16	112112	windows-custom.xml
Potential malicious macro shell execution - $(win.eventdata.parentProcessName)	16	112116	windows-custom.xml
PowerShell Enable PowerShell Remoting	16	112120	windows-custom.xml
Mimikatz detection via PowerShell Script	16	112121	windows-custom.xml
Wireless Credential Dumping using Netsh Command	16	112137	windows-custom.xml
Wireless Credential Dumping using Netsh Command - $(win.eventdata.parentProcessName)	16	112138	windows-custom.xml
Windows DISM Remove Defender	16	112181	windows-custom.xml
Powershell Script Execution Policy Changed to Bypass	16	112197	windows-custom.xml
Powershell Script Execution Policy Changed to Unrestricted	16	112198	windows-custom.xml
Checkpoint Harmony - Infostealer - $(action) - $(protection_name)	16	119046	checkpoint-harmony.xml
ufw-fw not approved https access to siem from $(srcip)	16	131017	ufw_rules.xml
ufw-fw not approved https access to dns server from $(srcip)	16	131019	ufw_rules.xml
ufw-fw not approved ssh to dns server from $(srcip)	16	131022	ufw_rules.xml
ufw-fw not approved ssh to siem server from $(srcip)	16	131024	ufw_rules.xml

Indicators - please pay attention!	15	108005	my-sophhos-fw.xml
Indicators - please pay attention!	15	108006	my-sophhos-fw.xml
Indicators - please pay attention!	15	108007	my-sophhos-fw.xml
Windows PowerShell Export Certificate	15	112130	windows-custom.xml
Windows PowerShell Export PfxCertificate	15	112131	windows-custom.xml
HOST file was modified	15	112133	windows-custom.xml
Credential Acquisition via Registry Hive Dumping - by $(win.eventdata.parentProcessName)	15	112140	windows-custom.xml
Checkpoint Harmony Endpoint Agent Uninstall via regsvr32.exe	15	112165	windows-custom.xml
Credentials Extraction By Esentutl SAM Copy	15	112172	windows-custom.xml
Critical event	14	70031	my-sophhos-fw.xml
Critical event - Anti virus	14	70032	my-sophhos-fw.xml
Alert severity event	14	70033	my-sophhos-fw.xml
Emergency severity event	14	70034	my-sophhos-fw.xml
Malicious file - action denied after Sandbox	14	70043	my-sophhos-fw.xml
Intrusion detection or prevntion system has been trigged	14	70044	my-sophhos-fw.xml
block ip from abuse.ch url list of c2 servers - the source ip is malicious	14	70068	my-sophhos-fw.xml
block ip from abuse.ch url list of c2 servers - the destination ip is malicious	14	70069	my-sophhos-fw.xml
sophos unsuccessful login attempts	14	70073	my-sophhos-fw.xml
Public Source IP traffic got allowed	14	70075	my-sophhos-fw.xml
AlienVault OTX -Indicator(s) Found	14	100080	otx-Alienvault.xml
Short-time multiple Windows Powershell critical events	14	100540	win_powershell_rules.xml
AbuseIPDB: SSH Authentication succeeded from a public IP address $(srcip) with $(abuseipdb.abuse_confidence_score)% confidence of abuse.	14	103005	abuseipdb.xml

URLhaus: An endpoint connected to a url known for deploying malware.	14	104004	local_rules.xml
Traffic from threatfeed: $(threatfeed) - $(log_subtype)	14	108028	my-sophhos-fw.xml
Traffic from threatfeed: $(threatfeed) - $(log_subtype)	14	108029	my-sophhos-fw.xml
Sophos - SMB traffic to external IP	14	108035	my-sophhos-fw.xml
unknown windows privileged user - $(win.eventdata.subjectUserName) - on - $(win.system.computer)	14	112106	windows-custom.xml
parent process Printspooler - unknown child process - $(win.eventdata.newProcessName)	14	112108	windows-custom.xml
child process csrss - other parent than smss - $(win.eventdata.parentProcessName)	14	112109	windows-custom.xml
child process svchost.exe - other parent than services.exe - $(win.eventdata.parentProcessName)	14	112110	windows-custom.xml
child process services.exe - other parent than wininit.exe - $(win.eventdata.parentProcessName)	14	112111	windows-custom.xml
child process lsass.exe - other parent than wininit.exe - $(win.eventdata.parentProcessName)	14	112113	windows-custom.xml
child process winlogon.exe - should not have parent - $(win.eventdata.parentProcessName)	14	112114	windows-custom.xml
child process explorer.exe - should not have parent - $(win.eventdata.parentProcessName)	14	112115	windows-custom.xml
Windows Screen Capture Via Powershell	14	112132	windows-custom.xml
Suspicious Zoom Child Process - $(win.eventdata.parentProcessName)	14	112136	windows-custom.xml
Unusual Child Process of dns.exe - $(win.eventdata.newProcessName)	14	112143	windows-custom.xml
reconnaissance AVProduct Through Pwh or WMI	14	112146	windows-custom.xml
psexec child process by $(win.eventdata.parentProcessName)	14	112157	windows-custom.xml
psexec parent proccess	14	112158	windows-custom.xml
Disable event Logs Using WevtUtil by parent process $(win.eventdata.parentProcessName)	14	112159	windows-custom.xml
Windows Password Managers Discovery and Search	14	112167	windows-custom.xml
Windows Office Product Spawned Child Process For Download - $(win.eventdata.parentProcessName)	14	112171	windows-custom.xml
Mmc LOLBAS Execution Process Spawn	14	112173	windows-custom.xml
Windows DISM Install PowerShell Web Access	14	112182	windows-custom.xml
Windows Private Keys Discovery and search	14	112187	windows-custom.xml
Windows Remote Management Execute Shell	14	112191	windows-custom.xml
Checkpoint Harmony Mobile - $(EventType) - WiFi network is not secured	14	121014	checkpoint-harmony-mobile.xml
Bunnycdn DDOS - 10000 visits in 1H	14	129011	BunnyCDN.xml
ufw-fw BLOCK ssh to siem from $(srcip)	14	131025	ufw_rules.xml
ufw-fw BLOCK ssh to dns server from $(srcip)	14	131026	ufw_rules.xml
ufw-fw BLOCK https to siem from $(srcip)	14	131027	ufw_rules.xml
ufw-fw BLOCK https to dns server from $(srcip)	14	131028	ufw_rules.xml
web filtering - Phishing or Fraud url	13	70051	my-sophhos-fw.xml
Potential malicious browser shell execution - $(win.eventdata.parentProcessName)	13	112117	windows-custom.xml
powershell fileless script contains base64 encoded content	13	112123	windows-custom.xml
powershell remote services add trustedHost	13	112124	windows-custom.xml
Remote Process Instantiation via DCOM and PowerShell Script Block	13	112125	windows-custom.xml
Unloading AMSI via Reflection	13	112126	windows-custom.xml
Windows Enable PowerShell Web Access	13	112127	windows-custom.xml
Runas Execution in Command Line	13	112150	windows-custom.xml
Detect Regsvcs Spawning a Process - $(win.eventdata.newProcessName)	13	112162	windows-custom.xml
Services LOLBAS Execution Process Spawn	13	112177	windows-custom.xml
SLUI Spawning a Process	13	112178	windows-custom.xml
Svchost LOLBAS Execution Process Spawn	13	112179	windows-custom.xml

Windows DLL Side-Loading Process Child Of Calc	13	112183	windows-custom.xml
Windows Process Injection In Non-Service SearchIndexer - $(win.eventdata.parentProcessName)	13	112188	windows-custom.xml
Windows Remote Host Computer Management Access	13	112190	windows-custom.xml
Windows Remote Services Allow Rdp In Firewall by $(win.eventdata.parentProcessName)	13	112192	windows-custom.xml
test - Compiled with dotnet - used for Antivirus Evasion by $(win.eventdata.parentProcessName) and $(win.eventdata.newProcessName)	13	112193	windows-custom.xml
File with known malware hash detected: $(file)	13	113302	wazuh-ioc.xml
AWS Cloudtrail: TerminateInstances - $(aws.eventSource)	13	140214	aws-extra.xml
